Senior Software Engineer with 9+ years of experience designing and delivering Java/Spring Boot microservices and data-driven enterprise applications. Skilled at automating business processes with Python and SQL, building CI/CD pipelines, and containerizing services with Docker. Recently built AI-powered learning and productivity platforms with Spring AI, React, and PostgreSQL. Completed a PG Diploma in Machine Learning & AI at IIIT Bangalore (2025) and received the Synechron Star Award.

Skills:

Java (Expert), Spring Boot (Expert), Microservices (Advanced), Spring AI (Advanced), REST APIs (Advanced), SQL (Advanced), PostgreSQL (Advanced), Python (Advanced), Docker (Advanced), Kubernetes (Intermediate), CI/CD (Advanced), Machine Learning (Intermediate)

EXPERIENCE

Senior Software Engineer — Jan 2023 – Present

Synechron — Pune, India

- Design and deliver Java/Spring Boot microservices for enterprise data platforms, focusing on reliability, scalability, and clean API design.
- Automate data-driven business processes with Python and SQL, reducing manual effort and improving data quality.
- Build and maintain CI/CD pipelines and containerized services using Docker and GitHub.

Software Engineer — Aug 2021 – Jan 2023

Ness Digital Engineering — Pune, India

- Developed Spring Boot services and REST APIs for client-facing enterprise applications.
- Optimized SQL queries and data access layers for reporting and operational workflows.

Java Software Developer — Oct 2019 – Aug 2021

Globemind Technology Pvt Ltd — Pune, India

- Built Java-based backend modules and integrated them with relational databases.
- Diagnosed and resolved production issues, improving application stability.

Application Developer — Aug 2017 – Sep 2019

Johnson Controls — Pune, India

- Developed and maintained enterprise application features and resolved defects with stakeholders.

EDUCATION

Postgraduate Diploma, Machine Learning & AI — IIIT Bangalore, Bengaluru, India | Sep 2024 – Oct 2025

Bachelor of Engineering (BE) — Pune University, Pune, India | Jun 2014 – Jun 2017

PROJECTS

AI Tutor — AI-Powered Learning Platform (2026) | Java 26, Spring Boot, Spring AI, React, Docker, Kubernetes

- Built an AI tutor that generates personalized syllabi, concept explanations, and MCQ assessments through Spring AI with Ollama and OpenAI providers.
- Implemented JWT authentication, progress tracking, and container/Kubernetes deployment manifests for the Spring Boot + React stack.

TheBridge — Personal Life Companion (2026) | Java 26, Spring Boot, PostgreSQL, Flyway, React, TypeScript, Docker

- Built a full-stack journal, habit, sleep, and wellness tracker with JWT/Argon2 auth, Flyway migrations, and a React 19 + TypeScript UI.
- Packaged the frontend into the backend jar and deployed a single Docker image behind Caddy with automatic HTTPS.

Banking Microservices (2024) | Java 17, Spring Boot, JPA, REST, H2

- Built three independent Spring Boot services for accounts, cards, and loans with REST APIs, JPA persistence, and an end-to-end Postman collection.

D-Tox — Mindful Android App (2026) | Kotlin, Jetpack Compose, Android

- Shipped a zero-permission Android app (2.5 MB) that adds a 30-second breathing pause before distracting apps.
- Built eight evidence-informed exercises with a gamified plant/gem system, plus a browser version.

ATS Resume Builder (2026) | HTML, CSS, JavaScript

- Built a single-file resume editor with five ATS-optimized templates, live preview, and client-side PDF export.
